

Tri-Canada

High Purity Products for the Biopharm Industry

Tri-Canada: Single Source of Supply for Replacement Diaphragms

Tri-Canada offers replacement diaphragms from Gemu, ITT and Saunders, the three major manufacturers of diaphragm valves for Biopharm applications. We carry inventory in Mississauga, for same day shipment of the most common sizes and styles of diaphragms used in Biopharm applications.

Gemu Replacement Diaphragms

(<http://www.gemu.com/>)

- A full range of Teflon (with EPDM backing) and EPDM 13 diaphragms
- Full FDA approval and USP Class VI traceability
- Diaphragms are interchangeable between manual and actuated valves with the same size body
- Sizes 1/2" through 4", plus 1/4" and 3/8" Type 601/2

Saunders Replacement Diaphragms

(http://www.craneflow.com/uploads/HC4_011_01_11.02.pdf)

- 2-pc Teflon diaphragm with EPDM backing
- P2 grade (standard sanitary) and S5 grade (steam resistant)

ITT Replacement Diaphragms

(<http://www.ittpureflo.com/itemfiles/pfdia06.pdf>)

- 2-pc Grade TM Teflon and Grade 17 EPDM
