Heavy-Duty PD Pump

Strength Meets Easy Tear Down

At Fristam, we've taken the toughest, most durable sanitary positive displacement pump and optimized it for those who need to strip clean their pumps daily or between batches. Introducing the new FKL COP pump, the rugged pump that is easy to disassemble for manual cleaning. The perfect combination of high-performance, toughness and simplicity.

- Fewer parts for easy COP—just two O-rings and a sleeve to seal each shaft
- Easy rotor removal with low-torque locknuts
- One-minute gearbox access with no special tools
- Rated for 500 PSI standard
- Large diameter shafts prevent rubbing and wear
- Balanced rotors for long pump life
- Extended bearing life gearbox design
