

Quality & Speed Create Value

Tri-Canada

OUR PRODUCTS

SANITARY FITTINGS & TUBING

Tri-Canada offers stainless steel fittings and tubing which are manufactured to meet or exceed industry standards. Stainless steel fittings for use with sanitary hose assemblies offer a finish of 15 Ra or better, can be sterilized, and are backed by quality control documentation. Tubing is available in a range of materials, lengths, and pressure capabilities for suction and discharge applications, our products deliver leak-free performance.

SANITARY PUMPS

All of Tri-Canada's easy-to-clean pumps help ensure hygienic and sterile conditions. Pumps are a critical piece of sanitary process equipment in the pharmaceutical processing, beverage manufacturing, food processing, and cosmetics manufacturing industries. That is why we offer pumps that reduce repair/replacement costs and minimizing downtime and energy consumption. Overall leading to a high lifetime value.

SANITARY VALVES

Tri-Canada delivers a wide variety of stainless valves that facilitate efficient samplings, drainage, and product changeovers while always ensuring maximum product integrity. We offer valves with superior drainability and cleanability. Designed to minimize the risk of cross-contamination, our valves ensure consistent and cost-effective sanitary processing.

SINGLE-USE & SANITARY FLUID HANDLING

Tri-Canada offers high purity, single-use solutions which are available in multiple high-grade materials. With short lead times and best-in-class traceability, these high purity solutions are designed and manufactured to accommodate the needs of different biomanufacturing processes. Single-use products decrease the risk of cross-product contamination, eliminate CIP and SIP steps, and lower overhead costs.

SANITARY HOSE ASSEMBLIES

Tri-Canada offers a full line of standard and custom hose assemblies. With access to a broad range of product lines from top manufacturers, we recommend the best possible solution tailored to the needs of your process. As a leading single-source provider, Tri-Canada offers complete solutions which get you into production sooner at a lower cost. CRN Hose Assemblies are available!

SANITARY GASKETS & SEALS

Tri-Canada can supply your operation with sanitary gaskets and O-rings to meet your needs while being compliant with sanitary market requirements. We partner with manufacturers who produce components that are designed and manufactured specifically for the sanitary industry. Our selections include various materials, colors, profiles, and sizes.
